BS2_GetDefaultLongResponseTimeout

[+ 2.9.12] Directly modify the packet response timeout for APIs with long response times from the device, such as [BS2_ScanCard](#), [BS2_WriteCard](#), [BS2_EraseCard](#).
The default value is 30 seconds.

Declaration

```
#include "BS_API.h"

int BS2_GetDefaultLongResponseTimeout(void* context, long* out);
```

Parameters

- [In] *context* : Context
- [Out] *out* : Timeout (milliseconds)

Return Value

Returns BS_SDK_SUCCESS when performed successfully, and returns the corresponding error code when an error occurs.
