BioStar 1, Card

How to issue a card

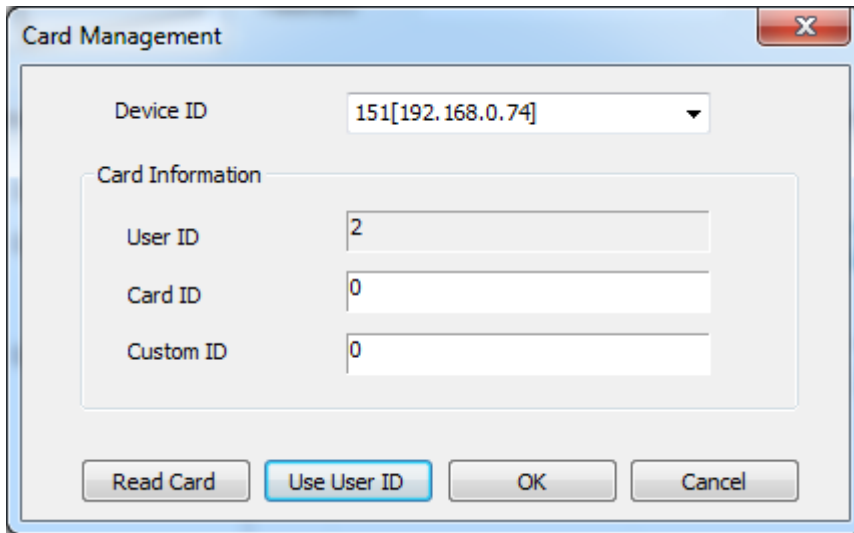

BioStar supports four types of cards: EM, HID, Mifare CSN and Mifare Template cards.

How to issue EM, HID, and Mifare CSN cards

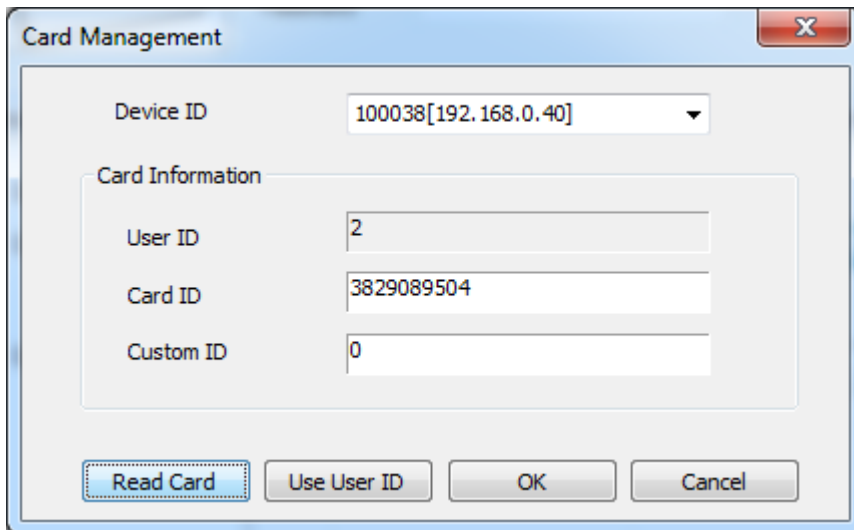

1. Go to the **User** page, choose a user to whom you want to assign a card in the **User** pane and click the **Card** tab.

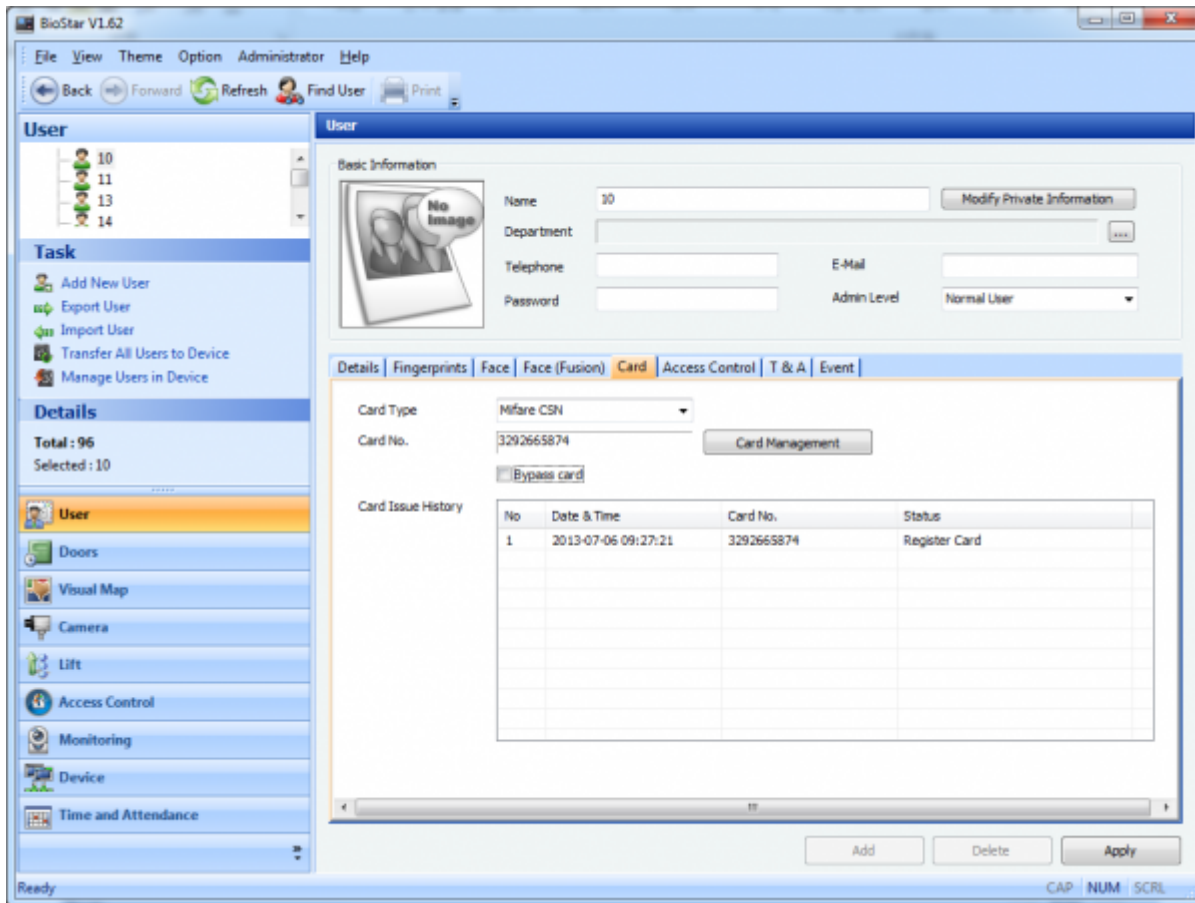

2. Click **Card Management** and this will bring up the **Card Management** dialog.

3. Choose a device you want to use as a card reader from the **Device ID** drop-down list and click **Read Card**.

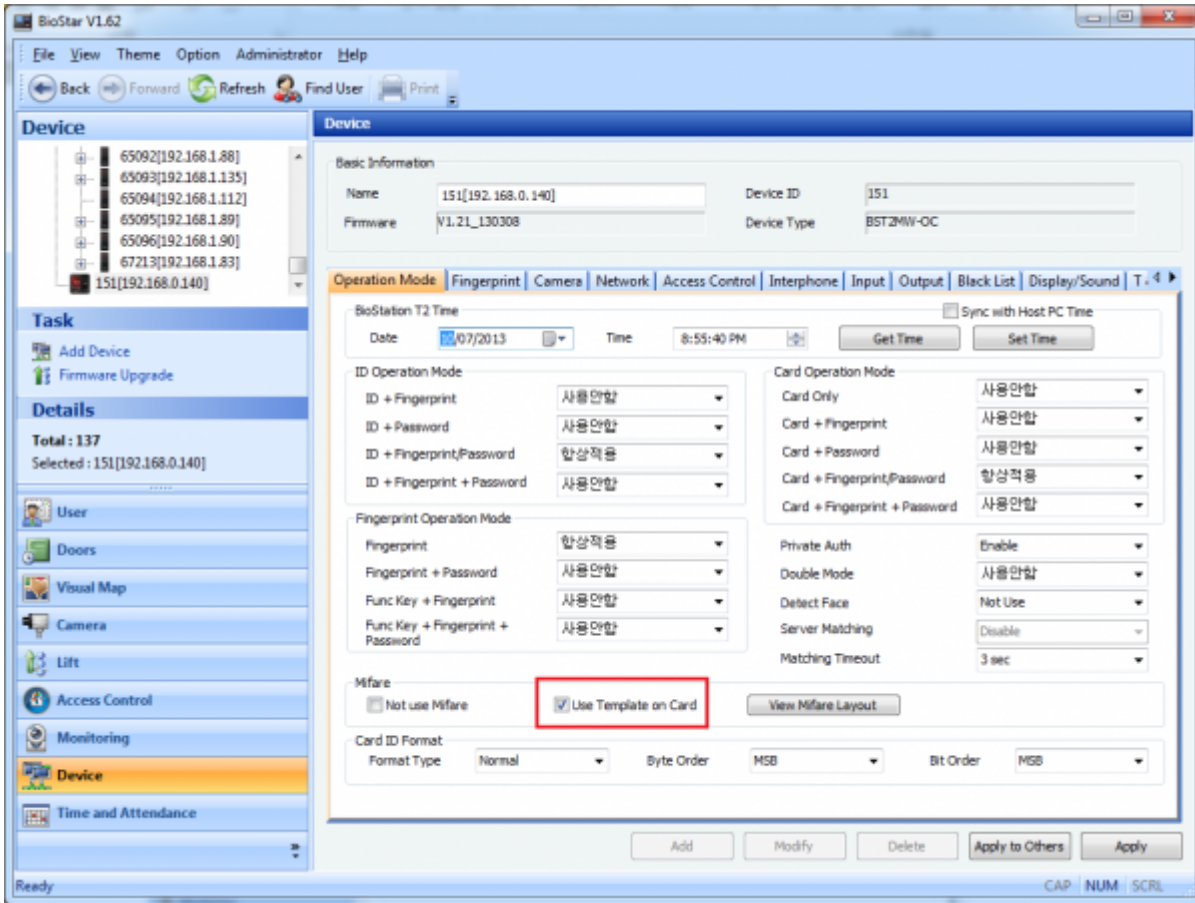

4. Click **Apply** to complete the card issuance process.

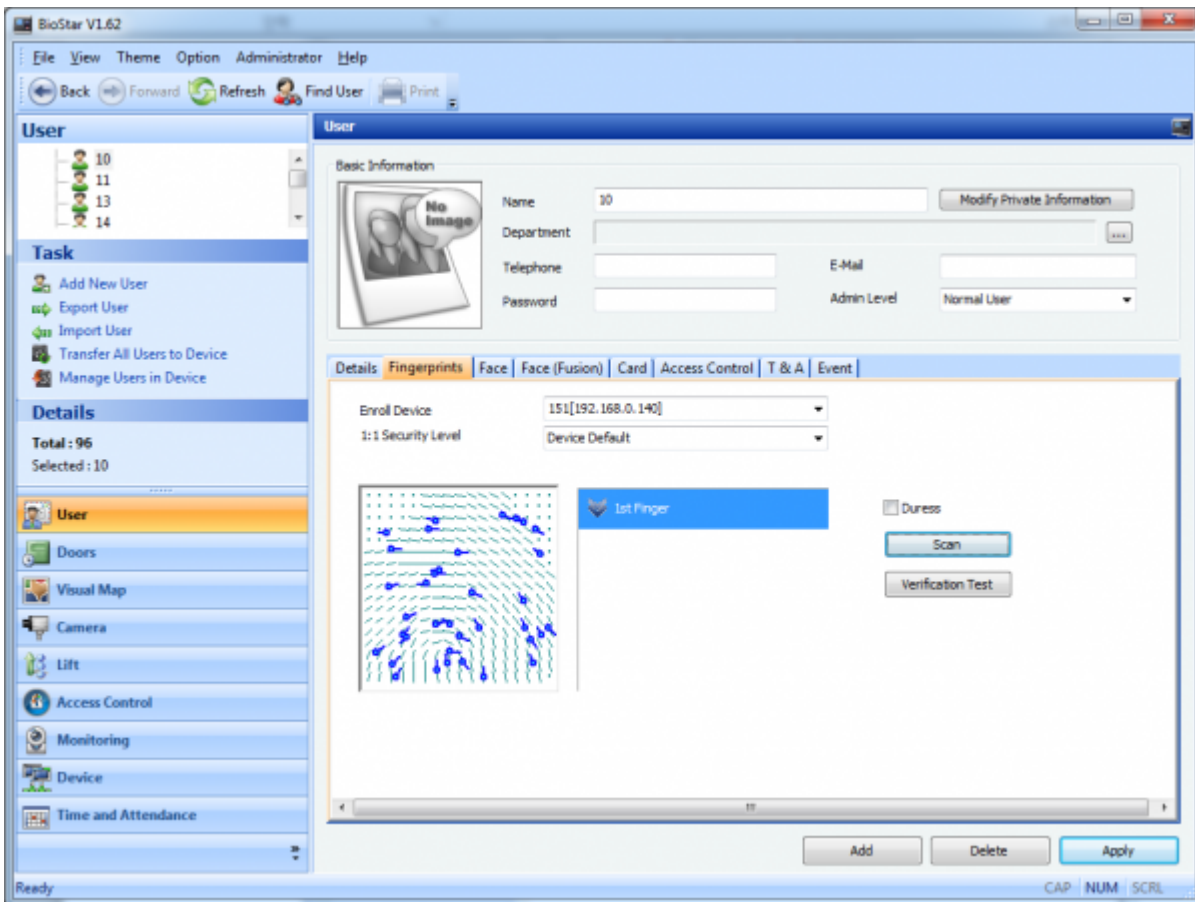

How to issue a Mifare Template card

1. You need to set the **Use Template on Card** option to allow users to verify themselves using their Template cards. You can set this option on the **Operation Mode** tab of the **Device** page:

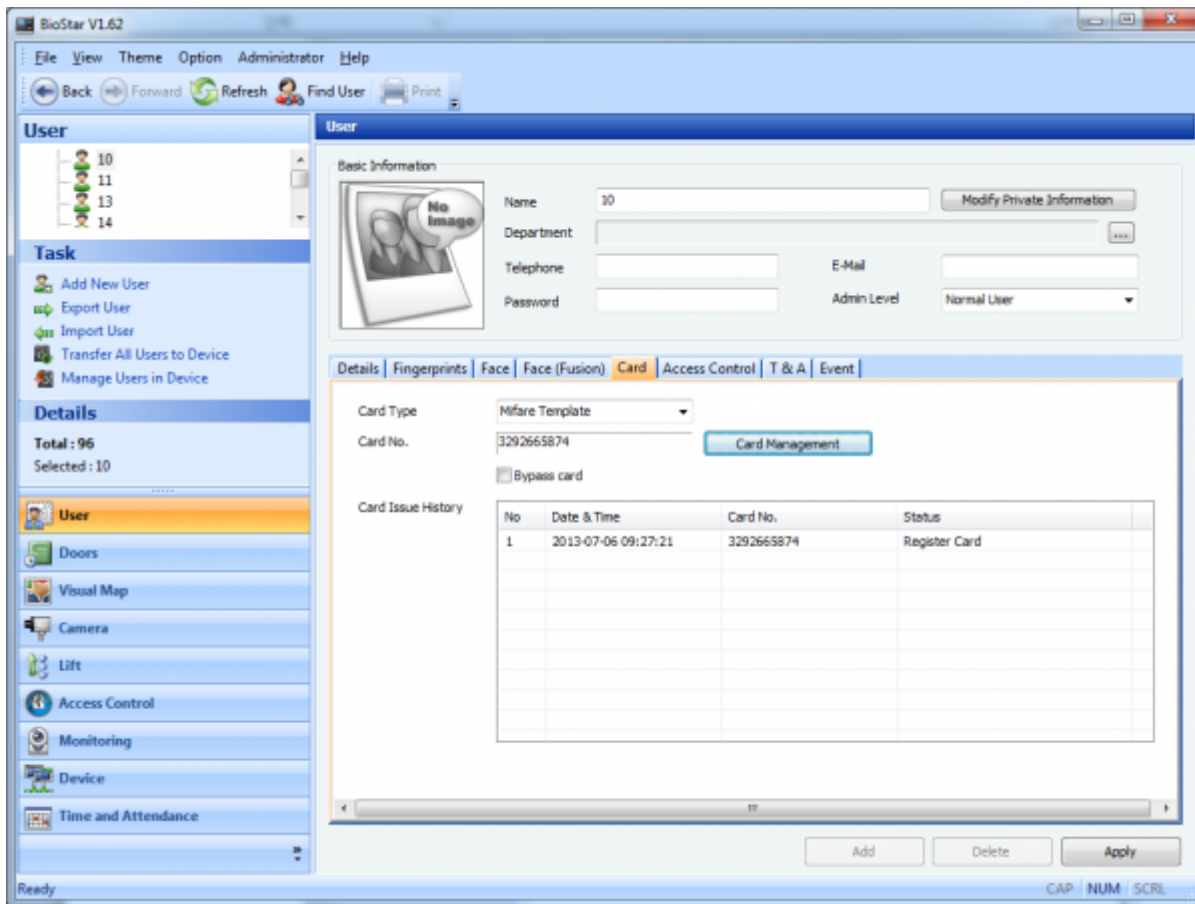

Make sure that your device supports the Mifare card reading feature. The model name ends with 'M' like BEPM, BSM and BLNM if the device supports the Mifare card reading feature.

2. Go to the **Fingerprints** tab on the **User** page and click **Add** to add a fingerprint to the user. Then, click **Apply**.

3. Go to the **Card** tab on the **User** page, choose **Mifare Template** from the **Card Type** drop-down list and click **Card Management**.

4. Click **Read Card** to read the card serial number of a card. The card serial number will be shown in the **Serial No.** field after reading the card.

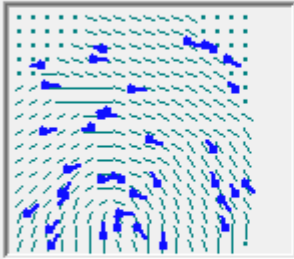

Card Management [Close]

Device ID: 12386[192.168.1.147]

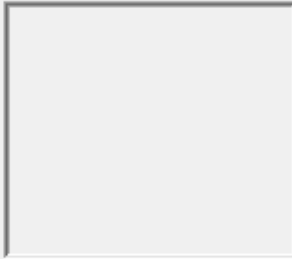

Smartcard Info

Serial No.		User ID	10
User Name	10	Security Level	Device Default
Access Group	전체 출입	<input type="checkbox"/> Bypass card	
Start Date	01/01/2000	Expiry Date	12/31/2030
