Enroll for Facial Recognition

Dear @naver.com,

SUPREMA is using facial recognition as an authentication process on BioStar2. You must first enroll your face into the system to access the location via the facial recognition device.

Press the button below to get started.

If the button above does not get you connected, please use the link below.

https://phit.biostar2.com/auth_update?key=szwvvyZenUZDf0DtZjJNLAqeJZ5eBJ0PQ1AF0jQPB

Once you finish the registration process, the button and link will no longer be available.

Please inform us of any problems occurred during the face enrollment.

Contact: plahn0101@gmail.com

Thank You for Enrollment

7. Follow the guide shown on the screen to register your face photo.

- Supported image file formats are JPG, JPEG, and PNG.
- The supported image file size is a minimum of 250 x 250, maximum of 10MB.
- Visual Face Enrollment link sent will expire after 24 hours, once used link can't be re-used.

8. The new algorithm added to the 2.9.0 version immediately allows users to check the success or failure of the facial template added on the mobile enrollment page.

User will be able to check the reasoning for failure of the facial template such as) can not detect face in the image.

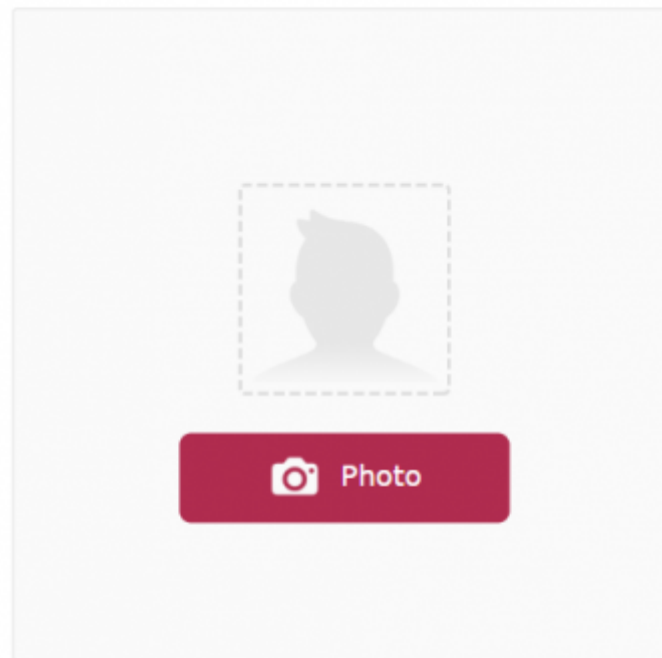

BioStar 2

Visual Face Registration

Your visual face has been
successfully enrolled.

BioStar 2 Visual Face Registration

File format : PNG/JPG only (Less than 10MB)
Picture guide 

Cannot detect face in the image. Please refer to the Help and try again with an appropriate image. (30008)
