Security Warning	
4	You are about to install a certificate from a certification authority (CA) claiming to represent: 192.168.16.49 Windows cannot validate that the certificate is actually from "192.168.16.49". You should confirm its origin by contacting "192.168.16.49". The following number will assist you in this process:
	Thumbprint (sha1): 35B040B5 8AE30D82 05573DC3 4171AF60 CD1C12DE Warning: If you install this root certificate, Windows will automatically trust any certificate issued by this CA. Installing a certificate with an unconfirmed thumbprint is a security risk. If you click "Yes" you acknowledge this risk. Do you want to install this certificate?
	Yes No
