The screenshot shows the 'Event Log' interface. On the left is a sidebar with navigation options: Event Log, Real-time Log, Device Status, Door Status, Floor Status, Zone Status, Alert History, and a pop-up for '1:N authentication failed (Fingerprint)'. Below the sidebar is a video player showing a door with the number '2'. The main area is a table of events with columns for Date, Device ID, Device, User Group, User, Event, and View. Two rows are highlighted with red boxes: one with a play button icon and one with a camera icon.
