How to add custom alarm sounds

You can add your own sound files for alarm sound on the BioStar client. Currently, only .wav files are supported.

1. Go to **Option > Event > Sound Setting**. This brings up the **Sound Setting** dialog.

2. Click **Add** and locate a sound file on your computer. After adding the sound file, click **Save**.

- The sound file that you've added here appears in the **Alarm Setting** dialog.
- You can listen to the sound by clicking **Play**.

Sound Setting [X]

Add or delete alarm sounds which is played when alarm.
