[System Configuration, BioStar 2](#)

Available to login with ID, Login ID or Email

From BioStar 2.5.0, you can login to BioStar 2 through one of options below.

- ID
- Login ID
- Email

For example, an user named hailey can login to BioStar 2 through one of three options marked red box.

The screenshot shows a user profile page for 'Sharon'. The 'Information' tab is active. The 'ID' field is highlighted with a red box and contains the value '2'. The 'Login ID' field is also highlighted with a red box and contains the value 'Sharon'. The 'Email' field is highlighted with a red box and contains the value 'Sharon@suprema.co.kr'. Other fields include Name, Department, Title, Telephone, Status, Access Group, User IP, Confirm Password, Password, and Nickname.

In the future version of BioStar 2, Login ID will be restricted to login to BioStar 2, which means Login ID field will be deleted from BioStar 2. This is because this field causes a lot of confusion to our clients. Therefore, we recommend that you should use either ID or Email in order to login to BioStar 2.
