# How to Issue and Use Mobile Smart Cards

Starting BioStar 2.4.1, you can use your mobile phone as a smart card with 2nd generation devices and Xpass S2.

Android phones can work with the 2nd generation device's NFC features, but iOS phones do not have the NFC feature so it currently can only work with FaceStation 2-AWB which has the Bluetooth feature.

Mobile Smart Card is supported with the versions below:

NFC

Mobile Device - Android 5.0 Lollipop OS or above Mobile App - BioStar 2 Mobile 2.4.1 or above Model & FW - XPS2M-V2 FW 2.4 or above BS2-OMPW, BS2-OIPW FW 1.4 or above BSA2-OMPW, BSA2-OIPW FW 1.3 or above BSL2-OM FW 1.2 or above BEW2-OAP, BEW2-ODP FW 1.1 or above FST2-D, FST2-AWB FW 1.0 or above

#### BLE

Mobile Device - Android 5.0 Lollipop OS or above iOS 9.0 or above Mobile App - BioStar 2 Mobile 2.4.1 or above Model & FW - FST2-AWB FW 1.0 or above

\* Mobile Smart Card may not be used depending on manufacturers.

Host card emulation (HCE) was used to implement the mobile smart card feature. Most of the latest Android devices use HCE but some devices may not support it. Note that NFC and BLE communication specification may vary by manufacturers and models and

Smart Phone Model	Phone OS Version	NFC	BLE
Galaxy S7	7	0	0
Galaxy S6 Edge+	6.0.1	0	0
Galaxy S6	6.0.1	X	0
Galaxy S4	5.0.1	0	0
Galaxy Note 5	6.0.1	0	0
Galaxy Note 4	6.0.1	X	0
Galaxy Note 3	5	0	0
Galaxy Note 2	4.4.2	X	Х
LG G5	6.0.1	X	0
iPhone 6	10.2.1	X	0
iPhone 6+	10.3.1	X	0
iPhone 5	10.3.1	X	0
P20 Pro (Huawei)	8.1.0 (Oreo)	X	0

there could be difference in performance. Below is a chart showing the result of tests we have done internally:

Support for NFC may differ based on the manufacturing date even if it is the same model of device.

# **Configuring BioStar**

- 1. Log in to BioStar 2.
- 2. Configure a Smart Card format for your mobile smart card.

Refer to How to iss	sue smart car	ds				
3. Go to <b>Setting</b> > <b>SE</b> 4. Switch <b>Mobile Card</b> User/Device Management	RVER. d Enrollmen	<b>t</b> on.				
Automatic User Synchronization Fingerprint Template Format	All Devices Suprema	Ψ.	Mobile Card Enrollment User ID Type	Active Number	Ŧ	

- 5. A warning popup will appear showing the requirements.
- 6. Click **Ok**.
- 7. Go to the **DEVICE** menu.
- 8. Select your device.
- 9. On the Authentication tab Smart Card Layout select your Smart card Layout you configured.
- 10. Click Apply.

# **Issuing the Mobile Smart Card**

- 1. Go to the **USER** menu.
- 2. Click ADD USER.
- 3. Enter user information such as Name, ID, Group etc.
- 4. Select an Operator Level. You can use the default User level for basic users. \
- 5. Enter a **Login ID** and **Password** to use when you log in to the mobile app.
- 6. Enroll a fingerprint for the user in the + **Fingerprint** menu.
- 7. Click on **+Card**.
- 8. Select Smart Card on Card Type.
- 9. Select your **Device**.
- 10. Select your Smart Card Type.
- 11. Choose your fingerprint.
- 12. Click Issue Mobile Card.
- 13. Click Apply.
