Structure of BioStar 2 Local API 1

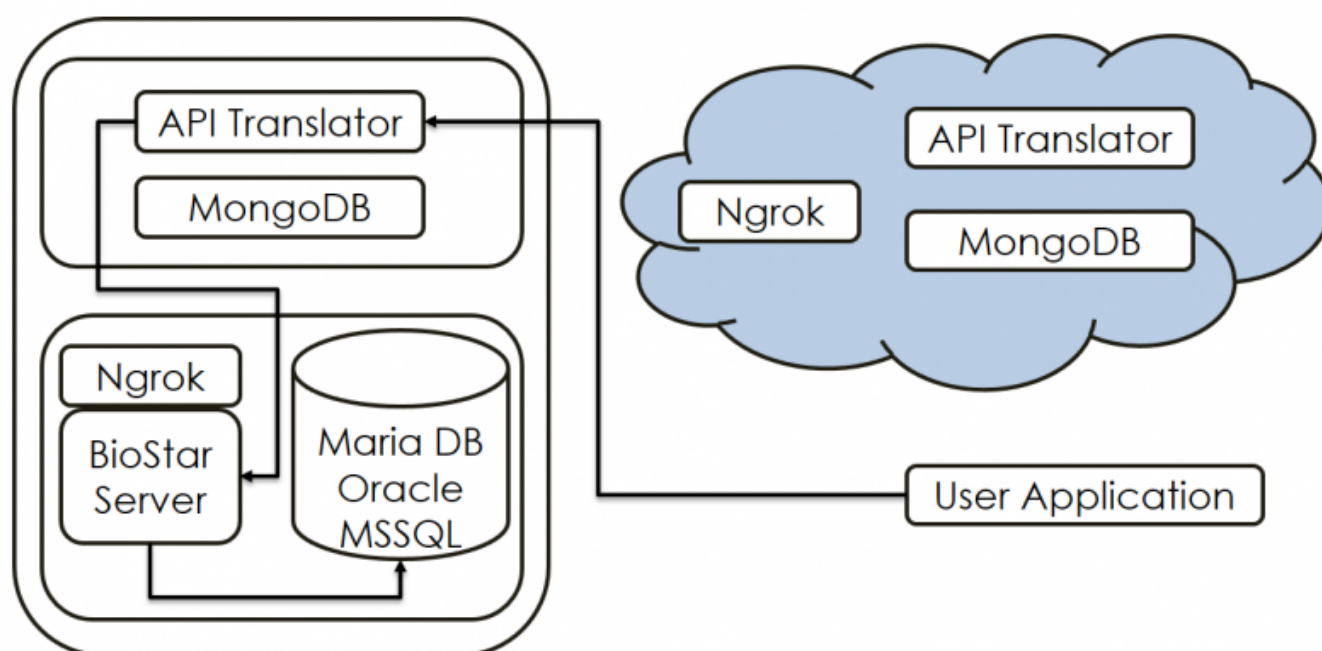

BioStar 2 Local API 1

Structure of BioStar 2 Local API

In case of BioStar 2 Local API, you should install additional application named BioStar 2 API Server on the local PC where BioStar 2 server has been already installed. In other words, BioStar 2 Local API can be used without cloud server.

BioStar 2 Local API

BioStar 2 Local API does not utilize the Cloud Server. Instead of usage of Cloud Server, you must install BioStar 2 Local API server separately on the local site. In this case, Ngrok is not needed since BioStar 2 Local API server is located in the same place with BioStar 2 server.

- **Pros:**

1. No limit to processing speed

- **Cons:**

1. When approaching from outside, either public IP or signing up DDNS service is required
2. Installation of **BioStar 2 Local API Server** is required
