User ID sorting depending on the user ID type setting in the server

Known Issue

User ID sorting was not working properly based on User ID Setting, particularly in Muster Zone and Access Group Menu, in BioStar 2 Version 2.7.10.

Resolved

From BioStar 2 Version 2.7.11, User ID got sorted correctly according to server user ID setting, both in the Muster zone and Access group menu.

Affected on BioStar 2 Version 2.7.11 and above Muster Zone

Muster
