## BioStar Server Config

### 1. BioStar Server

[BioStar Server: ]

The image shows the BioStar Server Config window. It has a title bar with a close button. The window is divided into several sections: Status, Connection, Database, and SSL. The Status section shows a green checkmark icon, a text box, and a 'Stopped' label. A 'Start' button is highlighted with a red rectangle. The Connection section shows 'TCP Port' set to 1480 and 'Thread Count' set to 32, with a 'Client List ...' button. The Database section shows 'Database Type' set to 'SQL Server', 'Database Name' set to 'BioStar', and a 'Set Name' button. It also has radio buttons for 'Server Authentication' and 'Windows Authentication', with 'Windows Authentication' selected. Below these are fields for 'Database Server' (\\LEE-PC\\BSSERVER), 'Port' (1433), 'ID' (sa), 'Password' (\*\*\*\*), and 'Max Connection' (1). The SSL section shows 'OpenSSL Path' set to 'C:\\OpenSSL\\bin\\openssl.exe' with a 'Browse' button, and 'Pass Phrase' set to '\*\*\*\*\*' with a 'Change' button. At the bottom are 'Refresh', 'Apply', 'OK', and 'Cancel' buttons.

**Status**

  **Stopped** **Start**

**Connection**

 TCP Port  Thread Count  **Client List ...**

**Database**

 Database Type  Database Name  **Set Name**

☐ Server Authentication ☒ Windows Authentication

Database Server  Port

ID  Password

Max Connection

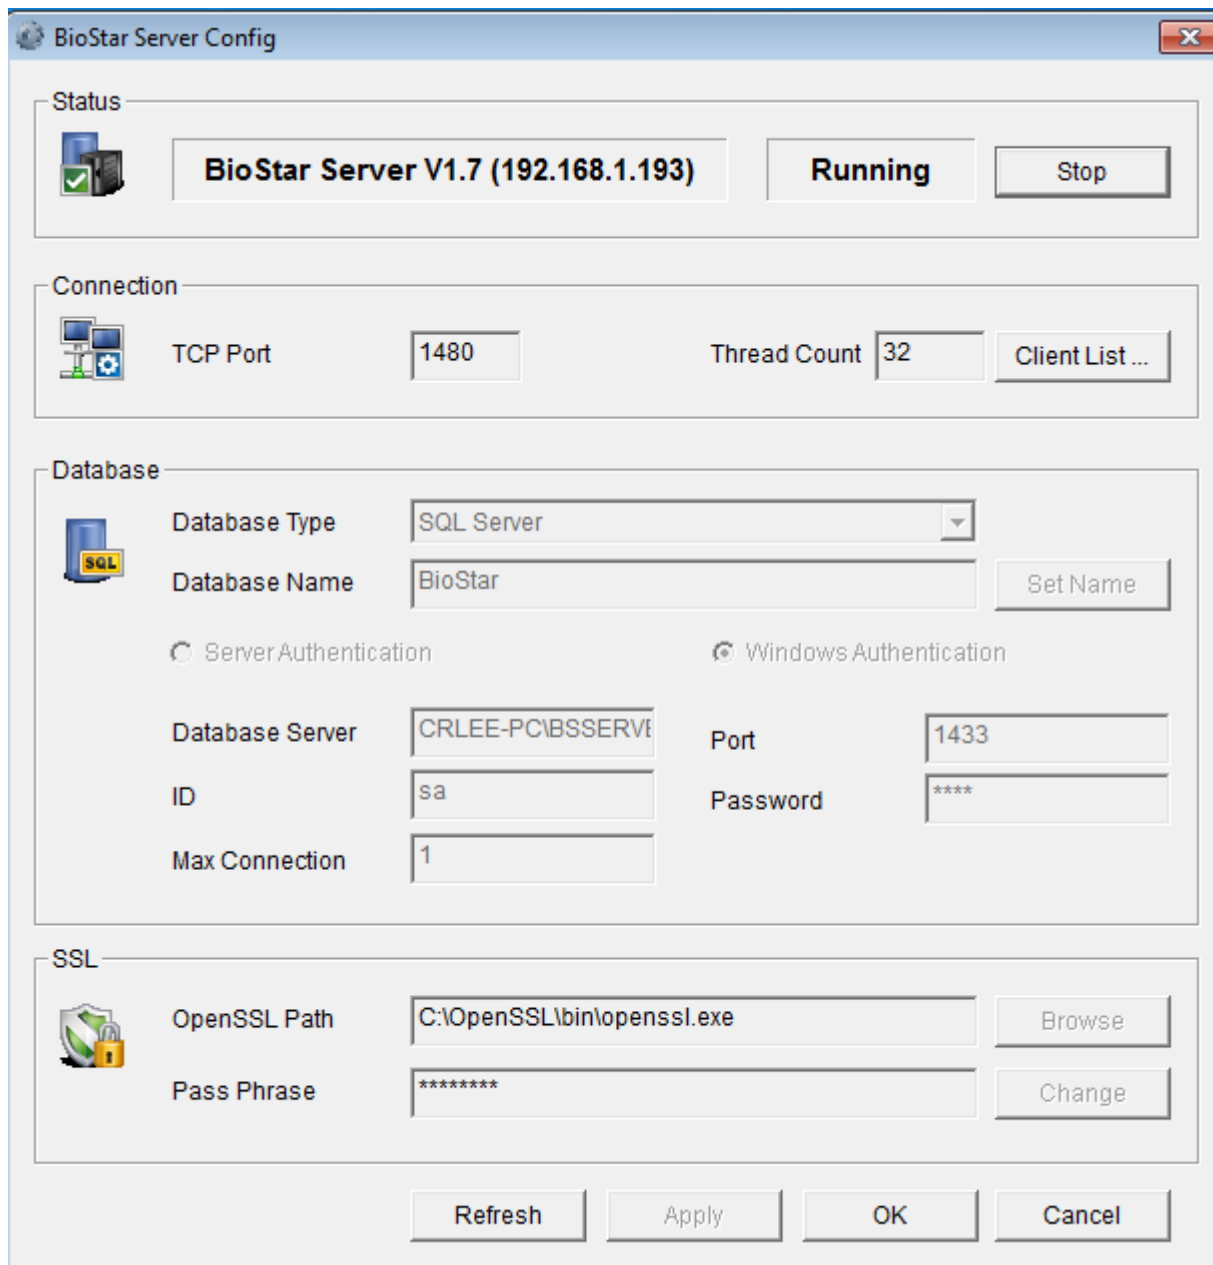

**SSL**

 OpenSSL Path  **Browse**

Pass Phrase  **Change**

**Refresh** **Apply** **OK** **Cancel**

[BioStar Server: ]

The image shows a Windows application window titled "BioStar Server Config". It has a standard Windows title bar with a close button. The window is divided into several sections:

- Status:** Contains a green checkmark icon, the text "BioStar Server V1.7 (192.168.1.193)", a "Running" status indicator, and a "Stop" button.
- Connection:** Contains a network icon, "TCP Port" set to "1480", "Thread Count" set to "32", and a "Client List ..." button.
- Database:** Contains a database icon, "Database Type" set to "SQL Server", "Database Name" set to "BioStar" with a "Set Name" button, radio buttons for "Server Authentication" (unselected) and "Windows Authentication" (selected), "Database Server" set to "CRLEE-PCIBSSERVE", "Port" set to "1433", "ID" set to "sa", "Password" masked with "\*\*\*\*", and "Max Connection" set to "1".
- SSL:** Contains a lock icon, "OpenSSL Path" set to "C:\OpenSSL\bin\openssl.exe" with a "Browse" button, and "Pass Phrase" masked with "\*\*\*\*\*" with a "Change" button.

At the bottom of the window are four buttons: "Refresh", "Apply", "OK", and "Cancel".
