## BS2\_GetDefaultResponseTimeout

[+ 2.6.3] Gets default response timeout between device and server. It defines timeout of API except some APIs such as connection(hardcoded 3s) and BS2\_GetFilteredLog(300s).

### Declaration

```
#include "BS_API.h"

int BS2_GetDefaultResponseTimeout(void* context, long* poMs);
```

### Parameter

- [In] *context* : Context
- [Out] *poMs* : Respond waiting time (milli seconds)

### Return Value

If successfully done, BS\_SDK\_SUCCESS will be returned.  
If there is an error, the corresponding error code will be returned.
