## BS2\_SearchDevices

Searches BioStar devices from the subnet and refresh the available device list in current Context. Use the [BS2\\_GetDevices](#) function to get the device list.

### NOTE

This will overwrite the existing device list.

### Declaration

```
#include "BS_API.h"

int BS2_SearchDevices(void* context);
```

### Parameter

- [In] *context* : Context

### Return Value

If successfully done, BS\_SDK\_SUCCESS will be returned.  
If there is an error, the corresponding error code will be returned.
