If you want to authorize Leave to an employee, you can utilize Leave Management tool.

A Leave can be a various types of absence such as personal leave (vacation or time-off), family incidents (death or accidents), maternity leave (fraternity leave), Work off-site or business trips, or military service or jury duty(citizenship duties). Some of these can be taken into account as a part of worktime(paid time-off), or not considered as part of worktime(non-paid time-off).

The purpose of using Leave Management is to identify if an employee is entitled to have paid time-off or non-paid time-off.

Worked: paid time-off(counted as a part of worktime)

Non-worked: non-paid time-off(not considered as part of worktime)
