System Design & Dev., BioStar 2

How to make the assigned card unassigned

If a card has been already assigned, you should use [PUT] /users/{id}/cards API to make it unassigned. Please note that you should send the request message with the following format. It will be improved in the next version of BioStar.

Correct Format:

```
1 {
2     "card_list": [
3     ]
4 }
5
```

Wrong Format:

```
1 {
2     "card_list": [
3     {
4         "card_id": "",
5         "id": ""
6     }
7     ]
8 }
9
```
