## System Configuration, BioStar 2

# Page navigation and search condition

The page navigation and search condition are improved in BioStar 2.5.0.

## Page Navigation

In BioStar 2.5.0, you can only move to the front and back pages of the current page unlike previous versions. In other word, you cannot go to the first and the last pages directly.

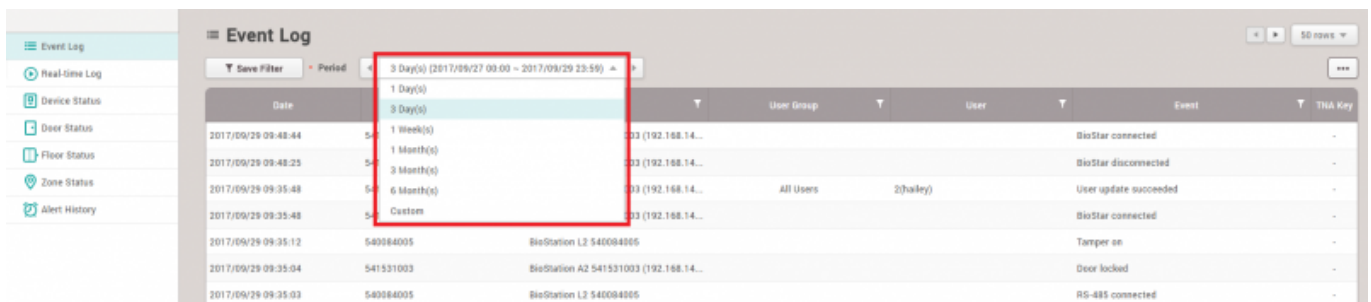

The screenshot shows the 'Event Log' interface. At the top right, there are navigation buttons: a left arrow, a right arrow, and a '50 rows' dropdown menu. These buttons are highlighted with a red box. Below the navigation area is a table with columns: Date, Device ID, Device, User Group, User, Event, and THA Key. The table contains several rows of event data.

Date	Device ID	Device	User Group	User	Event	THA Key
2017/09/29 09:48:44	541531003	BioStation A2 541531003 (192.168.14...			BioStar connected	-
2017/09/29 09:48:25	541531003	BioStation A2 541531003 (192.168.14...			BioStar disconnected	-
2017/09/29 09:35:48	541531003	BioStation A2 541531003 (192.168.14...	All Users	2(halley)	User update succeeded	-
2017/09/29 09:35:48	541531003	BioStation A2 541531003 (192.168.14...			BioStar connected	-

2017/09/29 09:35:04	541531003	BioStation A2 541531003 (192.168.14...			Door locked	-
2017/09/29 09:35:03	540084005	BioStation L2 540084005			RS-485 connected	-
2017/09/29 09:35:02	541531003	BioStation A2 541531003 (192.168.14...			DHCP connected	-

## Search Condition

In BioStar 2.5.0, new function that you can filter the event logs about certain period is introduced to improve the speed of search. Basically, you can set the 1 Day, 3 Days, 1 Week, 1 Month, 3 Months or 6 Months. Furthermore, if you want to search for the event logs regarding a customized period, you should set the Custom Period.

The screenshot shows the 'Event Log' interface with the search filter dropdown menu open. The dropdown menu is highlighted with a red box and contains the following options: 3 Day(s) (2017/09/27 00:00 - 2017/09/29 23:59), 1 Day(s), 3 Day(s), 1 Week(s), 1 Month(s), 3 Month(s), 6 Month(s), and Custom. The table below shows the same event log data as in the previous screenshot.

Date	Device ID	Device	User Group	User	Event	THA Key
2017/09/29 09:48:44	541531003	BioStation A2 541531003 (192.168.14...			BioStar connected	-
2017/09/29 09:48:25	541531003	BioStation A2 541531003 (192.168.14...			BioStar disconnected	-
2017/09/29 09:35:48	541531003	BioStation A2 541531003 (192.168.14...	All Users	2(halley)	User update succeeded	-
2017/09/29 09:35:48	541531003	BioStation A2 541531003 (192.168.14...			BioStar connected	-
2017/09/29 09:35:12	540084005	BioStation L2 540084005			Tamper on	-
2017/09/29 09:35:04	541531003	BioStation A2 541531003 (192.168.14...			Door locked	-
2017/09/29 09:35:03	540084005	BioStation L2 540084005			RS-485 connected	-
