Unlimited Access Level and Access Group Supported 1

Unlimited Access Level and Access Group Supported

From BioStar 2 v2.7.3, unlimited access level and access group are supported by BioStar 2 software. But in current Suprema device firmware is not supported for unlimited access level and access group. (May, 2019)

According to the capacity difference of devices, 1st generation entry level devices has more strict limitation then 2nd generation devices. Please refer an article below and check the capacity differences. [\[BioStar 2\] Notice for Usage of Combined Environment 1st Generation Entry Level Devices and 2nd Generation Devices](#)

- If you generated more access levels and access groups than device capability, devices would lose sync with BioStar 2 server.
- If your device lost sync with Biostar 2 server, then the system would not operate properly.

	BioStar 2 (From v2.7.3)	1st Generation Device	2nd Generation Device
Max Access Group	Unlimited	128	2048
Max Access Level	Unlimited	128	2048

- From BioStar 2 v2.7.3, Floor Level is supported without limitation.
- Referred article : [\[BioStar 2\] BioStar 2.7.3 Unlimited Floor Level Supported](#)
