Enter and Modify PIN When Using User CSV Import

| Affect Products & Versions | |
|----------------------------|--------------------------|
| BioStar 2 | BioStar v2.8.14 or above |

In BioStar 2.8.14, we improved the CSV Import feature to support entering and modifying PIN credentials.

- Enrolled PIN data CANNOT be exported to a CSV file.

Step 1> Add the 'pin' column to the CSV file to be imported.

You can use 'PIN', 'pin', or any other column names for this.

| user_id | name | departme | user_title | phone | email | user_grou | start_datetime | expiry_datetime | PIN |
|---------|------|----------|------------|-------|-------|-----------|----------------|-----------------|-----|
|---------|------|----------|------------|-------|-------|-----------|----------------|-----------------|-----|

Step 2> Enter the user's PIN on the 'pin' column and save the file.

| user_id | name | departme | user_title | phone | email | user_grou | start_datetime | expiry_datetime | PIN |
|---------|-----------------------|----------|------------|-------|-------|-----------|----------------|------------------|------|
| 1 | Administrator | | | | | All Users | 1/1/2001 0:00 | 12/31/2030 23:59 | |
| 2 | PIN from 1234 to 1111 | | | | | All Users | 1/1/2001 0:00 | 12/31/2030 23:59 | 1111 |
| 3 | New PIN user 5555 | | | | | All Users | 1/1/2001 0:00 | 12/31/2030 23:59 | 5555 |

Want to change PIN from 1234 to 1111.

New user with PIN.

Step 3> Import CSV file that added PINs into BioStar 2.

'pin' column will be on the bottom of the CSV Import column list.

CSV Import

| | |
|------------------------|------|
| csn_mobile | None |
| qr | None |
| 26 bit SIA Standard... | None |
| HID 37 bit-H10302 | None |
| HID 37 bit-H10304 | None |
| HID Corporate 1000 | None |
| HID Corporate 100... | None |
| 34 | None |
| 56 | None |
| face_image_file1 | None |
| face_image_file2 | None |
| pin | PIN |

• When the same User ID exists in BioStar 2
