How to add a TNA key field in the event log of Monitoring

From BioStar 2.5.0, you can check TNA key column in the event log of monitoring section.

Go to the Column Setting by clicking on the right side.

Check TNA key in a column list.

The screenshot shows the 'Event Log' window in BioStar 2. A 'Column Setting' dialog is open, allowing users to select which columns to display in the event log. The 'TNA Key' column is selected and highlighted with a red box. The background shows a table of event logs with columns for Date, Device ID, Device, User Group, User, Event, and View. A red box highlights the 'Column Setting' button in the top right corner of the Event Log window.

If an user check in/check out on the TNA device, you can check it though the TNA column. This column can be checked in both Event Log and Real-time Log sectors.

Date	Device ID	Device	User Group	User	Event	TNA Key
2017/09/28 16:36:19	541531003	BioStation A2 541531003 (192.168.14.207)			Door locked	-
