How to control a door via Mobile App

1. Tap **DOOR** and choose a door you want to control, and check the door information.

2. Tap **Door Control** and choose one of the actions among the list, and tap **OK** to perform.

3. Relay locked or unlocked message shows at the bottom and tap **View Log** to see the event logs.

4. Check the event logs occurred at this door.

How to use monitoring on Mobile App

1. Tap **MONITORING** and check the event logs.

2. If you tap each event, you can move to the linked page.

3. Set the filtering option to list the selected events.

4. In order to refresh the event logs, swipe the screen from up and down.
