# Supports Dynamic Site Configuration

Suprema officially supports Suprema Mobile Access Dynamic Site from BioStar 2.8.9.

## Dynamic Site Policy

- **Dynamic Site** allows you to reissue, revoke, or discontinue mobile access cards or specify the expiration date of it. It deducts credits according to the period of use or devices. Dynamic can be used in gyms, libraries, or shared facilities where it provides membership services.
- The BioStar 2 server needs to be connected to the Internet and run **ONLY** when issuing or deleting a Dynamic Card.
- Mobile devices for which Dynamic Cards have been issued must **ALWAYS** be connected to the Internet. In unavoidable cases, a maximum exception time of 5 minutes is allowed, but after that, it will be marked as network disconnected and the access card cannot be used.
- There is only one site that can be registered in BioStar 2> Settings> Mobile Access. Dynamic Site and Regular Site cannot be connected together in one BioStar 2 server.
- If you create a Dynamic Site on Airfob Portal, you can issue a Suprema Mobile Access card for free for **1 MONTH** without purchasing a license. When the free trial period has expired, and if you have not purchased a separate credit for the Dynamic Site, you will be notified as follows:
  - **BioStar 2** : Alert message will show if administrator tries to issue or delete mobile access card. (The site is currently under payment required status. Please change the site's credit from the Airfob Portal and try again.)
  - **Airfob Portal** : Free usage period expiration email sent to Dynamic Site administrator account.
  - **Airfob Pass** : Card issued at Dynamic Site is changed now to suspended.

- The credit deduction method of Dynamic site is different from Regular.

Card Issuance Limitation	Unlimited
Credit Deduction Policy	1 Credit deduction per device registered
Billing Method	Monthly *Contact Sales Representative for further details.(Link)

- Detailed description about difference between Dynamic Site and Regular Site:[Related Article](#)

- If the dynamic site is connected, when the Mobile Access Card is issued, the message about credit deduction is **NOT** confirmed. (Same for both issuing directly from the user page and issuing through CSV.)
- If the dynamic site is connected, you must enter the expiration date of the Mobile Access Card.
- When batch issuing a Mobile Access Card for a Dynamic Site through CSV Import, the import **FAILS** if there is no information about **the start and end date of the validity period for the card**.

user_id	name	department	user_title	phone	email	user_group	start_datetime	expiry_datetime	mobile_start_datetime	mobile_expiry_datetime	sn_mobile
1	Administrator					All Users	1/1/2001 0:00	12/31/2030 23:59			
2	Suprema Mobile Access Test	Suprema Test	Test Engineer		jhlee2@sup	All Users	1/1/2001 0:00	12/31/2030 23:59	12/31/2020 14:14	3/18/2023 14:14	2

- After creating a dynamic site, even if a device is added, the credit is verified as **0**. Even if the credit is 0, you **CAN** proceed with issuing and authenticating a Mobile Access Card for the Dynamic Site for free for **1 MONTH**.

**Step 7>** Open the mailbox on your phone and download the Mobile Access Card. There are two ways to download:

1. Click the download button in the email. ([Related Article](#))
2. Use an activation code. ([Related Article](#))

**New mobile mobile access card has been issued**

Hello **cardtest@testmail.com**,

Your Airfob Portal mobile access card has been issued from Dynamic.

In order to download the mobile access card onto your smartphone, please click the button below.

**Download Mobile Access Card**

If you cannot download the mobile access card automatically using the button above, copy and paste the URL below and open on the web browser.

<https://mcapplink.page.link/UrqG98mxn5xfcbDy5>

\* Once downloaded, the mobile access card download button and URL are no longer valid.  
\* Valid for 1 month since it has been sent.

The smartphone screen displays the **Suprema Mobile Access Test** card, showing the user's profile, title, department, and validity period (2020.12.31 - 2023.03.18).

- Need to configure validity period for Mobile Access Card in Dynamic Site.
