

Table of Contents

The Suprema Versatile Platform (SVP) Android SDK is a programming interface designed to take advantage of the core functions of Suprema devices in other software. The SDK is made up of a set of APIs that make it easy to use the Suprema device's functionality for developing solution applications for time and attendance on Android.

- Build a biometric solution: Suprema's powerful biometric technology is available.
- Support for the latest Android OS: Provides the optimized performance and robust security based on Android 8.0 (Oreo).
